* Megjegyzés:

A Formica dekor színe sok esetben megegyezik a megadott RAL kódszám által definiált színnel, de esetenként a dekor színe csak nagyon hasonlít a megadott RAL kód szerinti színhez.

Kérjük, hogy a Formica dekorok különböző struktúrájú (matt, fényes, prégelt, stb.) felületeinek különböző fénytechnikai (fényelnyelő-fényvisszaverő) hatása miatt a szín kiválasztását minden esetben anyagminta alapján végezze.
